

## **Introduction of the new corporate identity of Alceda Fund Management S.A.**

**Luxemburg, June 2016** – Founded in 2001, Aquila Group is a leading provider of alternative investment solutions in real assets, financial and private markets. As the Group's dedicated AIF & UCITS platform, Alceda Fund Management S.A. is a recognized independent specialist for structuring, launching and managing UCITS and AIF solutions across a broad range of investment strategies for fund managers worldwide.

In order to better reflect Alceda's position as part of the Aquila Group, we have decided to unify Alceda's corporate identity with that of Aquila Group, resulting in a "one-identity" look and feel for the Group's different business units. Effective from the 1st of June 2016, the corporate design of Alceda's logo, marketing materials and website presence will therefore reflect the corporate design of the Aquila Group. As a result, Alceda will be instantly recognisable as a member of the reputable Aquila Group to its clients and stakeholders, whilst keeping its own well-established brand name.
